

## **SAMSON SXS BARREL NUT**

### **INSTALLATION INSTRUCTIONS**

***Always make sure your rifle is unloaded and clear before beginning installation of the Samson SXS Barrel Nut.***

1. **Remove** existing handguard, gas tube and gas block if present.
2. **Torque** Samson Barrel Nut to receiver with provided barrel nut wrench.
3. **Reinstall** gas block and gas tube per manufacturer's instructions.
4. **Mount** Handguard by sliding it over barrel, gas block, and gas tube assembly onto the barrel nut until handguard bottoms out on receiver face.
5. **Tighten** the clamp screws on the handguard until clamp contacts barrel nut. Tighten bottom clamp screw until tight.
