

To our valued customers:

Having been identified as part of the Defense Industrial Base Essential Critical Infrastructure Workforce, Samson Manufacturing will be maintaining our normal work schedules as mandated by the Department of Homeland Security. This designation is assigned to organizations which support the essential products and services required to meet national security commitments to the Federal Government and the US Military.

While we will remain open for business, we may need to shift our production priorities to meet these obligations during the current crisis. This may impact deliveries and product availability for our commercial customers; however, we will strive to fulfill orders from existing inventory and new production to the extent that our supply chain partners can maintain material deliveries for non-critical demand.

We ask for your patience and understanding while we support the effort to navigate this crisis.

Thank You
Scott & Cathy Samson
